Highlights

SWL Training Hub had the pleasure of attending the London Anchor Institutions' Network hosted by the Mayor of London, a celebration of five years of impact, bringing together London's anchor institutions at City Hall.

Some of the city's largest and most influential organisations came together to reflect on five years of collective effort to build a fairer, greener and more prosperous London and to look ahead at what more we can achieve together.

We're incredibly proud to be representing South West London primary care in this space, and proud of the contribution we make quietly, consistently, and collaboratively to our communities and the wider system.
