

Declaration Interest Declaration

Conflicts of Interest Policy

Issued: September 2026

Next Review: September 2027

Introduction

Agreement to this Policy is a condition of membership of the Committee and all new members are required to sign a statement to this effect on appointment.

Integrity and the requirement to declare any relevant interests or circumstances, including those that could, or could be perceived to, compromise the Committee's work, is a principle of the Values and Behaviours and any breach of this policy therefore constitutes a breach of the Code of Conduct.

Aim

This policy aims to ensure that all Committee members act in the best long-term interests of community pharmacy by understanding their duties in respect of making collective decisions and declaring and managing any interests, including those that may, or may be perceived to, impact the decisions they make as members of the CPSWL Committee. Potential risks of conflict of interest include poor decision-making, loss of trust amongst

General Principles

Members of the Committee are elected and appointed to bring their membership constituency, professional and business knowledge and experience, to inform the work of CPSWLInterest and the Committee.

All decisions must be made by Committee members together in the best interest of the overall sector and not in a member's own interest or those of their related retail pharmacy business or appointing body or own constituency. (For the avoidance of doubt, this means that a member of the committee may express views on behalf of an appointing body or constituency or other person but may not be bound to vote or decide an issue in a particular way. This means the member is free to amend their views in the light of the debate.)

Committee members must declare any personal interests (and those of immediate family members or other closely connected persons), including those that could, or could be perceived to, impact any decisions that they make as a member of the Committee in order that any potential conflicts can be managed appropriately.

Committee members must not use any confidential knowledge or information acquired through their role to inappropriately benefit themselves or others.

Committee members must ensure that they are not open to (or perceived to be open to) improper influence through the acceptance of gifts or hospitality.

Arrangements

Most Committee members will have a multiplicity of interests, personal, professional or those of family members, that may, on occasion, compete with the best interest of community pharmacy in England. It is impossible to avoid conflicts altogether, particularly in the context of the Committee's purpose which is to bring together representatives of the sector. However, any potential conflicts, can be minimised and managed effectively, openly and transparently if they are known.

All members are therefore required to complete a declaration of interests on appointment. The declaration of interests asks members to consider and declare, for example, any personal, financial and professional interests, as well as any pharmacy/NHS-related interests of close family members, such as spouse/partner, child or parent, or another close connection (e.g. business partner).

All declarations are published on the CPSWL website

Members will be asked to review and confirm their declaration annually and should inform CPSWL of any changes that arise in the meantime. Any questions regarding completion of the declaration of interest form, including what needs to be declared, should be addressed to Mayank Patel, Executive Chair

Name:

1.	Remunerated Directorship of company(s) (public or private) and businesses owned personally or in partnership	
2.	Remunerated employment or offices	
3.	Remunerated Consultancy(s)
